

# AGENDA

## Smart Growth Coordinating Committee August 30, 2001

ITEM	TIME
1. Introductions, logistics	9:00- 9:15
2. Smart Growth and Environmental Permitting - Stormwater Issues	
<i>Setting the Stage:</i>	
<i>“Great American Neighborhood” (GAN) principles and designs Stormwater implications from GAN’s and commercial growth areas</i>	
Handouts, visuals and presentations will be provided by Judy East and Jeff Dennis on these topics	9:15-9:45
<i>Existing stormwater regulations (State, Federal, Local) and how they can and can’t deal with compact development (GAN) or with commercial development in growth areas. New federal, state and local initiatives and opportunities will also be presented</i>	
Handouts and a presentation will be provided by Don Witherill	9:45-10:15
<i>Discussing the implications:</i>	10:15- 11:30
<i>What are the creative design responses needed to accommodate stormwater from these developments?</i>	
Todd Janeski and Brad Guay will prime the discussion with examples.	
<i>What policy and regulatory changes/responses are called for by this conversation?</i>	
<i>Eg. Stormwater utilities; stormwater ordinances; off-site approaches; capital investments in facilities that limit stormwater runoff...</i>	
<i>Are there sub-watershed trade-offs to be made in growth areas when design responses reach the limit of their effectiveness?</i>	
<i>Where do we go from here?</i>	11:30-...
Smart Growth Institute presentation (Sept 18-19, 01) Great American Neighborhood Design Workshop (December 4 ‘01) Others...
